

Stephen Powell, MS

Principal and Managing Partner

Steve Powell has been involved in human factors education and teamwork training in the US Navy, commercial airline industry, and the healthcare industry for 25 years. His experience includes flying as a major airline captain, aviation & patient safety instruction, curriculum development, accident investigations including root cause analysis, research, and simulation. Steve regularly provides patient safety training, consulting & coaching to healthcare leadership and clinical teams in civilian and military healthcare organizations worldwide. He has authored numerous articles on human factors, team performance and patient safety. He earned a Masters in Human Factors from Embry-Riddle Aeronautical University. Steve is a graduate of the Naval Postgraduate safety school and earned his undergraduate degree in Mathematics from the University of North Carolina at Chapel Hill. Steve is a member of the Human Factors and Ergonomics Society, the Society of Industrial and Organizational Psychologists, the Clinical Human Factor Group, and the American College of Healthcare Executives. He also serves as a Board member for the North Carolina Center for Hospital Quality and Patient Safety. Steve has served as a member of the Technical Expert Panel for TeamSTEPPS® – Strategies and Tools to Ensure Performance and Patient Safety for the Department of Defense since 2006. His hobbies include cycling, hiking, mountain climbing and fly fishing. Other interests include cooking and spending time with family.
